

PRACTICE IT

- 1 The cost, C , of b books at \$7 each.

$$C = \underline{\hspace{2cm}} b.$$

- 2 The length, l , of a piece of wood 300 cm long with 5 cm cut off.

$$l = 300 - \underline{\hspace{2cm}}.$$

- 3 The mass, M , of cereal in each bowl if 1200 g is shared into p bowls.

$$M = \frac{1200}{\underline{\hspace{2cm}}}$$

- 4 The total number of students, S , in the hall if there are 80 boys and g girls.

$$S = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}.$$

- 5 The cost, C , of d drinks at \$3.50 each.

$$C = \underline{\hspace{2cm}}.$$
