

- On your copy of the spiral, fill in more numbers.
Colour all the multiples of 2.
What do you notice?
- Use a different colour to colour all the square numbers.
What do you notice?

Square numbers are numbers that could be the area of a square that has whole number sides – like 4 (2×2) and 9 (3×3).

What other number patterns can you find?

[illegible][illegible]

		14	13
5	4	3	12
6	1	2	11
7	8	9	10

[illegible][illegible]

A 4x4 grid with concentric squares. The numbers 1 through 14 are placed in the cells as follows:

		14	13
5	4	3	12
6	1	2	11
7	8	9	10
