

2 WHAT ANGLE AM I?

- a Choose who is **Student A** and who is **Student B**.
- b **Student A** makes either an acute, right or obtuse angle with their arm, the angle being at the elbow.
- Student B** has to say which sort of angle it is and why.

Example

B *It is an obtuse angle because it is greater than a right angle but less than a straight angle.*

CHAPTER 12
