

1 HOW MUCH WATER?

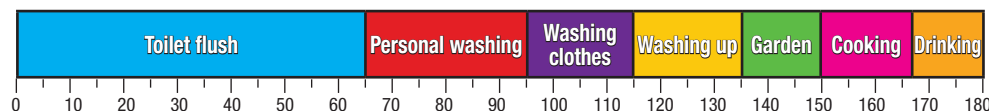

This table shows the amount of water Jess's family used one day when they all played sport.

Activity	Amount of water used (L)
Toilet	65
Personal washing	55
Washing clothes	40
Washing up	10
Garden	15
Cooking	10
Drinking	20

- Use two **different** graphs to show the data.
- This strip graph shows the **average** daily water usage by families of the same size as Jess's family.

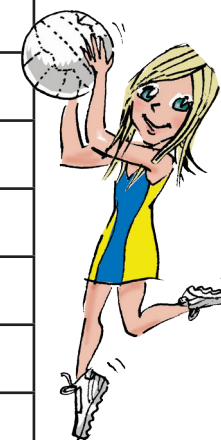

Jess's family want to save water.
Use one of your graphs to decide how they could best do this.
