

EXTRA TASK SHEET

CHAPTER 2 - INTEGERS

1 WHERE DID NEGATIVE NUMBERS BEGIN?

Some of the earliest evidence (600 BC in China) of the use of negative numbers was in this sort of chart that was used for accounting purposes.

132			≡	
5089	≡		⊥	≡
-704		≡		
-6027	⊥		=	≡

The red (money received for goods) was positive and the black (money spent) was negative. The red and black were balanced out to get an overall positive or negative balance.

Explain the way the numbers in the chart are written.

Research the history of negative numbers and present your findings in a creative way.
