

EXTRA TASK SHEET

CHAPTER 6 - INTRODUCING RATIOS

1 REAL LIFE RATIO

Make a model of a simple object of your choice.

Choose a ratio such as 1 : 10 so that the size ratio of model to : real life is 1 : 10.

Some ideas are:

school buildings, furniture, sports equipment,
mobile phones or computers

Make your model so that the corresponding lengths on the model and the real life object are in your ratio.
