

- Play **Triangles** with a partner.

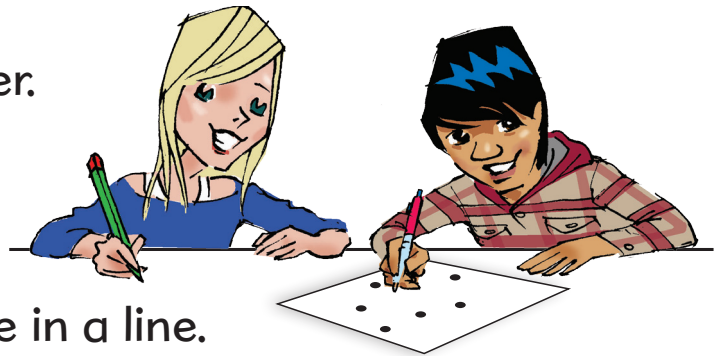

You will need a pen each.

Draw 6 dots on paper.

Make sure no three dots are in a line.

Take turns to join two dots with a line.

The first player forced to make a triangle, loses.

- Which of these shapes do you know?

triangle

square

rectangle

quadrilateral

parallelogram

hexagon

kite

rhombus

Work with a partner to find an example of each shape from either the classroom, around your school, a picture in a book or else draw one.

Describe what you know about each shape to your partner.
