

- Sketch what the bar charts might look like for what these people are talking about. Put each on a separate empty bar chart like this one.

I watched about the same amount of TV each day.

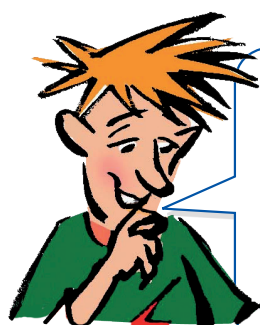

Hone

I watched lots of TV on four days but not much on the other days.

Jaxson

On average I watch about 3 hours but I watch heaps on Saturday.

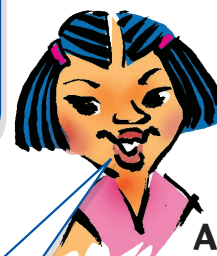

Isaac

I watched lots of TV at the beginning and end of the week but not so much in the middle of the week.

Olivia

Aroha

Each day I watched more than the day before.

- Make up a statement yourself. Give it to your partner to sketch a bar chart that matches the statement. Draw a chart to match the statement. Compare your charts.
