

PROBABILITY SCALE

Set up a probability scale like this in your classroom.

Go and stand where you think the probability of these is. Explain to the person nearest you each time, why you put yourself there.

- 1 You will be asleep before 10 pm tonight.
- 2 You will be famous one day.
- 3 You will visit a grandparent in the next week.
- 4 You will have potatoes for dinner tonight.
- 5 You will go swimming in the next month.
- 6 Tigers will become extinct in the next 100 years.
- 7 Life will be found somewhere else in the universe in your life time.
- 8 The next child born in the world will be a boy.
