

Chapter 14 – Rich task 1 - Angle art

Page 227

1

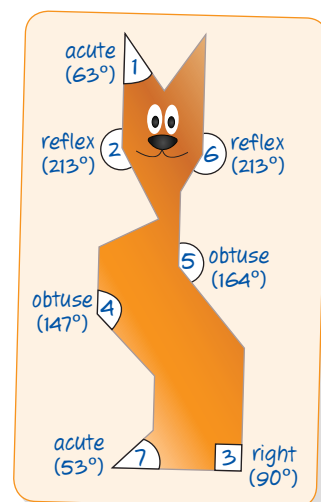

Angle art

- 1 Draw a picture which includes angles.
- 2 Measure at least eight of the angles and write the size on the picture.
- 3 Your picture must include some acute, right, obtuse, straight and reflex angles.
- 4 Name the type of each angle.
- 5 Work out the size of any other angles that you can without measuring.

Variation

You could take photographs instead and measure and name the angles in the photographs.

Make sure you photograph at least two of each sort of angle.
