

Chapter 14 – Rich task 2 - Angles in real-life

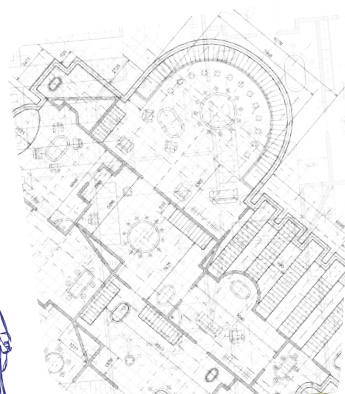

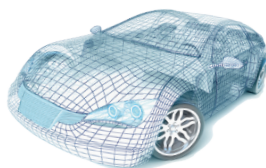

Page 227

2 Angles in real-life

- Angles are often used in people's jobs.

- Engineers and architects use angles when designing.
- Sportspeople use their knowledge of angles to improve their performance.
- Artists use their knowledge of angles.
- Carpenters, fashion designers and car manufacturers use angles when designing.

- Choose one of these jobs/hobbies and make a presentation about the angles used.
Your presentation must include naming, measuring and drawing angles.
If particular angles are important, comment on why they are.
