

Chapter 2 – Check up - Questions 1 and 4

Page 32

1 Fill in the missing fractions and percentages.

Show how you worked out one of your answers.

4 Work out what each missing number should be. Draw a diagram or use materials if you need to.

a $\frac{1}{5} = \frac{\quad}{10} = \frac{\quad}{100} = \quad\% = 0.\quad$

b $\frac{3}{10} = \frac{\quad}{100} = \quad\% = 0.\quad$

c $\frac{1}{4} = \frac{\quad}{100} = \quad\% = 0.\quad$

d $\frac{7}{50} = \frac{\quad}{100} = \quad\% = 0.\quad$

e $\frac{3}{5} = \frac{\quad}{10} = \frac{\quad}{100} = \quad\% = 0.\quad$

f $\frac{3}{4} = \frac{\quad}{100} = \quad\% = 0.\quad$

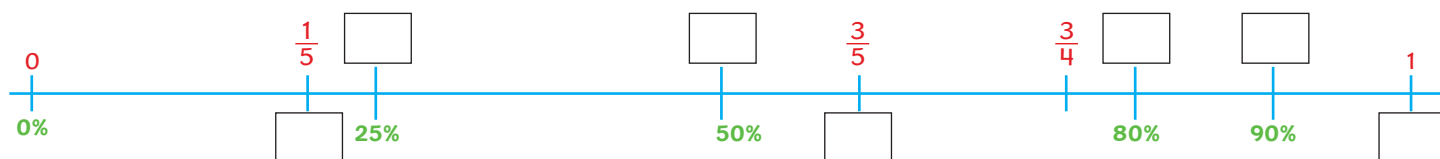

I visualise the proportions in a hundreds square or on a number line to help.
