

Chapter 20 – Activity 2 - Question 5

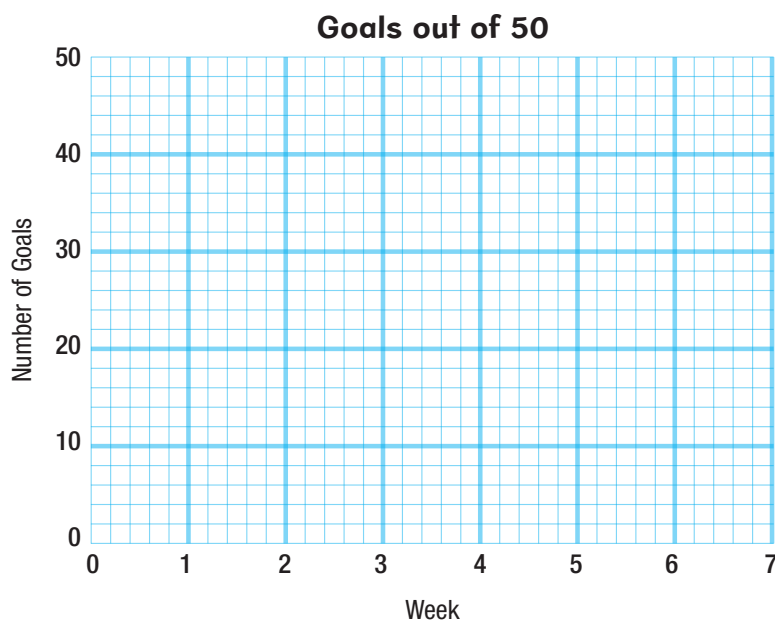

Page 341

- 5 Every day Jess practised her goal shooting for netball. At the end of each week she tested to see how many goals out of 50 she could get through the net. This table shows her results.

Week	1	2	3	4	5	6	7
Number of goals out of 50	12	20	26	32	36	40	42

- a On the grid draw a line graph to show this information.
- b Could you use the graph to estimate how many goals Jess was able to shoot after three and a half weeks? Explain your answer.
