

Chapter 21 – Rich task 3 - Love it or hate it

Page 345

3

Love it or hate it

- Brainstorm some topics that interest or frustrate you.

Examples - The school gym is only used 25% of the time.

- Motorists are not stopping at the school pedestrian crossing.

- Write some specific questions you would like to have answered or make some assertions you would like to test about your area of interest.

Examples - Would the school community use the school gym if it was open after school and at the weekends?

- At which times of the day and how frequently are motorists not stopping at the school pedestrian crossing?

- Use the Enquiry Cycle on page 355 to carry out an investigation.

- Write a short report outlining

- each step of the Enquiry Cycle,

- any problems you had,

- anything that might mean your results are not accurate.

You could use a brainstorming/creative thinking tool to help.

The double headed arrows may mean you change or modify or add to your investigation as you work through it.
