

Chapter 6 – Rich task 2 - Body ratios

Page 114

2

Body ratios

- Find these ratios for some of the students in your class.

handspan : height

length of thumb : length of forefinger

head circumference : neck circumference

- If you round some of the numbers, are any of the ratios about the same for most students?
- Are the ratios different for boys and girls?

Think about how to measure these, how accurate you need to be and what units to use. You could use a table to collect the results.
