

Chapter 9 – Activity 1 - Question 4

Page 169

- 4 Mia's tap drips 50 mL of water every minute.
Mia went out shopping and left the plug in the plughole.

- Fill in this table and graph to show the relationship between the total amount of water in the sink and the number of minutes since Mia left the plug in.

Time (min)	1	2	3	4	5	6
Amount of water (mL)
